Nutri Shield™ Insect Repellent for Pets

Garlic is known to fend off parasites like, fleas, mosquitoes, biting flies and ticks. Long after we can no longer smell it, Nutri Shield keeps working to keep these biting insects and parasites away. Safe, Effective and All-Natural, our **Nutri Shield™ Pet Formula** is an excellent alternative for those who wish to avoid the use of chemicals like DEET, Pyrethrins and Permethrins. The unique herbal blend of garlic, lemongrass (lemon grass) and peppermint smells great and is safe enough to use every day without irritation. Once a week is sufficient to protect indoor pets; but, we recommend spraying **Nutri Shield™** twice a week on outdoor dogs and cats.

Garlic in History, Science, & Culture

Garlic has been in use in homes across the globe for centuries. With its roots in Chinese, Ayurvedic, European and American Folk Medicine, **no natural pest repellent can claim greater appeal than garlic.** Garlic's touted benefits include: insect repellency, animal pest repellency, elimination of parasites, anti-septic and anti-microbial properties. The wide use of garlic throughout history coupled with modern research adds to its welcome and ready acceptance by the general public.

The "Natural" Trend

For more than a decade, natural products have gained traction in the consumer marketplace in all areas from foods to supplements and from health care to lawn care. Consumers are becoming increasingly aware and concerned by the health and environmental impact of synthetic chemicals. **The Nutri Shield™ line of products provide an effective alternative to chemical pest repellency that is Safe, Natural and EPA Exempt!**

A Growing Concern

There has been a growing concern in the press regarding mosquitoes, ticks, and other pests. Consumers and business owners are actively seeking out safe, natural and sustainable solutions. **Nutri Shield™ provides the most effective natural alternative blend packaged and labeled for a wide array of applications.** Consumers seeking the best insect repellents available for pets, livestock, outdoor activities, sports, recreation, home gardening, horticulture and agriculture can now rely on: **Nutri Shield™!**
